It gives me immense pleasure to extend my heartfelt congratulations to the Indian Medical Association (IMA), Nagpur Branch, on the occasion of the Installation Ceremony of the new team of office bearers for the year 2025–2026. IMA Nagpur has a proud legacy of serving the medical fraternity as well as society at large. Over the years, it has emerged as a credible and proactive platform that advocates for the professional interests of doctors and also significantly contributes to public health awareness, community service, and medical education. Your commitment to ethical medical practice, public service, and continuous learning is indeed commendable.

The healthcare sector occupies a critical space in our nation's development. India is moving forward with rapid strides in every sector and healthcare is no exception. However, the challenges are equally significant; ranging from accessibility and affordability to infrastructure and manpower. In this context, organizations like IMA play a pivotal role in bridging the gap between the government, healthcare professionals and the general public.

The development of robust road and highway networks not only fuels economic growth but also directly impacts the accessibility of medical services, especially in rural and remote regions. Timely access to healthcare can be the difference between life and death, and efficient transportation systems play a crucial role in achieving this goal.

Going forward, I urge the new team to continue working collaboratively with local, state and national authorities to develop and implement innovative healthcare initiatives. Public-private partnerships, health education campaigns, and community outreach programs can all benefit from the insights and leadership that IMA provides. The medical landscape is evolving rapidly with the advent of artificial intelligence, robotics and precision medicine. Indian doctors have always been recognized globally for their expertise. We must now encourage our youth to also lead in medical innovation and research, not just in practice.

I extend my best wishes to Dr. Rajesh Sawarbandhe and the incoming team for a productive and successful tenure. I also commend the editorial team of 'Intimate' for their continued efforts to capture and share the voice of the medical fraternity. Newsletters such as this serve as a crucial bridge in keeping the community informed, inspired and engaged.

With best wishes and warm regards,

Yours

(Nitin Gadkari)

MESSAGE FROM GUEST OF HONOUR

**Hon'ble Dr. Shrikantji Shinde**

Orthopaedic Surgeon

जय महाराष्ट्र !

आज इंडियन मेडिकल असोसिएशनच्या नवनिर्वाचित अध्यक्षांच्या पदभारग्रहण या गौरवशाली सोहळ्यात सहभागी होण्याचा सन्मान मला लाभला आहे याचा मला अत्यंत आनंद होत आहे.

इंडियन मेडिकल असोसिएशन नागपूर शाखेचे सन २०२५-२६ चे अध्यक्ष म्हणून डॉ. राजेश सावरबांधे यांची निवड झाली ही फार सन्मानजनक बाब आहे. आज मी खासदार आहे परंतु त्याआधी एक डॉक्टर म्हणून मला य क्षेत्रातल्या सर्व बाबींची कल्पना आहे. जग संपादकाने पुढे जात आहे. नव-नवीन संशोधन आता Google वर लगेच उपलब्ध आहे. त्यामुळे रुग्णांचे नातेवाईक आता खूब चौकस झाले आहेत. त्यामुळे या क्षेत्रात काम करताना डॉक्टरांना अनेक समस्यांना तोंड द्यावे लागते. त्यांची पाठराखण करून या क्षेत्राला बदनाम होण्यापासून वाचवण्याची भूमिका IMA ने स्विकारली पाहिजे. मला कल्पना आहे कधी कधी काही डॉक्टरांच्या चुकीमुळे संपूर्ण क्षेत्राला बदनाम होण्याची शक्यता निर्माण होते, ती टाळता आली पाहिजे व त्यासाठी IMA ने डॉ. राजेश सावरबांधे यांचे नेतृत्वाखाली व संपूर्ण चमूने आपली बांधिलकी अधोरेखित केली पाहिजे.

नागपूर हे उपराजधानीचे शहर आहे. आज मुंबई मध्ये नागपूरचे अनेक नामवंत डॉक्टर्स सेवा देत आहे. डॉक्टरांची नवीन पिढी हे सातत्याने एकानंतर एक नवीन संशोधांवर भर देताना दिसते. हे अतिशय चांगली बाब आहे. नागपूर सुद्धा इतर राज्यासाठी मेडीकल हब बनले आहे. अशावेळी आपली जबाबदारी वाढते. मी आजच्या या प्रसंगी नवनिर्वाचित अध्यक्ष डॉ. राजेश सावरबांधे, सचिव डॉ. जितेंद्र साहू व इतर कार्यकारी सदस्य तसेच माजी अध्यक्षा डॉ. मंजुषा गिरी व सचिव डॉ. प्राजक्ता कडुस्कर यांना शुभेच्छा देतो उत्कृष्टतेच्या मूल्यांना कायम बळकट करण्यासाठी आपण कार्यरत राहाल अशी अपेक्षा करतो.

MESSAGE FROM PATRON

Dr. Ashok Adhao

**Past National President, IMA HQ
Patron, IMA MS**

Dear Members,

Greetings from IMA, Nagpur!

Please make your association strong.

After working in IMA, it is my duty to request all modern medicine practitioners to join our mother organization IMA. In democracy the numbers are very important. Once all doctors become members, IMA will be a strong force to reckon with.

You must contribute something regularly and help in smooth running of associations. If you are busy practitioner and cannot give time for association activities, please contribute financially and help your association in management of finances. If you have time, please try to attend maximum activities in your branch. If you are interested join or take official positions and help IMA at Local, State and National level activities. If you are good in writing, please write articles on various medical issues or non academic issues and send it to IMA, so that if found fit, we can circulate to our members through our publications. We may send it to press for publicity to help general population at large.

These are some of the suggestions from my side, you can have your own ideas for making our association strong. My final goal is to make our association strong. So this strong IMA will be able to help its member in their all difficulties.

My best wishes to the New Team IMA, Nagpur !

MESSAGE FROM INCOMING PRESIDENT**Dr. Rajesh Sawarbandhe****President****Indian Medical Association Nagpur Branch**

It is with immense gratitude and a deep sense of responsibility that I accept the honor of serving as the President of the Indian Medical Association, Nagpur, for the year 2025-26. I am truly humbled by the trust and confidence you have placed in me. I assure you that I will dedicate myself wholeheartedly to uphold the values and principles that define this esteemed association.

I would like to begin by expressing my sincere appreciation to our Patron, IMA MS and Nagpur, Dr. Ashok Adhao Sir; my mentor, Dr. Milind Naik Sir; all esteemed past presidents; and every member of IMA Nagpur who has supported and believed in my vision. Your guidance and encouragement mean the world to me.

At the outset, I extend heartfelt gratitude to my predecessors, whose leadership and tireless efforts have shaped IMA Nagpur into the distinguished institution it is today. Their initiatives-including health camps, mentorship programs, and awareness campaigns-have laid a strong foundation for us to build upon.

I congratulate Team IMA 2024–25, ably led by Dr. Manjusha Giri, for their outstanding contributions. Under her leadership, our association not only sustained its legacy but reached new heights in service, education, and advocacy.

IMA Nagpur is the biggest pillar of support for doctors in our city. Time and again, it has stood by us, providing strength and solidarity during challenging times. This solidarity is our greatest strength.

As I take on this responsibility, my primary agenda is to enhance the visibility of IMA Nagpur within the local community. We will actively engage with society, aiming to build deeper trust and respect for the medical fraternity through a number of impactful initiatives.

We live in an era where scientific facts are often questioned, while content on Instagram Reels or Podcasts is taken at face value. It is more important than ever to reaffirm the credibility of modern medicine. Our efforts will focus on positioning doctors as torchbearers of truth and knowledge, nurturing stronger doctor-patient relationships and deeper community engagement.

I commit to continuing all valuable initiatives of IMA Nagpur, including CMEs, CPR workshops, awareness programs, Doctor's Day celebrations, national health observances, and academic conferences.

Under the “60+ Club,” we have introduced a music class exclusively for our senior members, guided by Dr. Satish Kadam. We are also launching a Parent Mentoring Program, where younger IMA members will regularly connect with and support senior members whose children may be living away. This initiative aims to foster intergenerational bonds and support the emotional well-being of our elders.

This year, in collaboration with Orthopaedicians, Gynaecologists, Endocrinologists, and Physicians, we are proud to host India’s first National Conference on Osteoporosis-a milestone event that brings together specialists to address this pressing health issue.

Further, NIMACON, scheduled for the first week of October, will be held alongside YOUTHCON, offering a vibrant platform for knowledge exchange between experienced practitioners and young professionals.

We also plan to organize a conference on Zoonotic Diseases in collaboration with the Veterinary Association this winter, promoting a multidisciplinary approach to public health.

My second key focus is to elevate the prestige of IMA Nagpur and establish it as one of the most respected and dynamic chapters in IMA Maharashtra. We aim to grow our reach, attract young and talented professionals, and become a stronger voice in healthcare policy and advocacy.

A Call to Action

I invite each one of you to join me on this journey. Let us strengthen our fraternity, support each other in times of need, and uphold the noble values of our profession. With collective will, dedication, and a shared vision, I am confident we can lead IMA Nagpur to new and greater heights.

Thank you once again for this incredible opportunity. I pledge to serve you with integrity, passion, and unwavering commitment.

Jay Hind. Jay IMA.

Why Join IMA??

Friends,

Medical profession was noble and Doctor was God

In old golden days doctors enjoyed great prestige in society. Doctors were treated almost like God. These sentiments are declining today. The whole scenario is fast changing. Now-a-days medical practice has become difficult. Doctor's sacrifices have no value, his dedication to profession is not recognized. He is subjected to endless oppressive legal formalities. The so-called social thinkers misguide the society. Media also paints a very black picture of the doctors. The social miscreants pressurize him for recovering contributions and at times assault him. The police force also exploits him. The medical practitioners have lost mental and physical stability. Those doctors who are dedicated to continuous service of patients and who many a time neglect their family members for saving the lives of patients, have no protection today. The present situation calls for **"Doctors' Protection Law"**. The doctor community must organize solidarity for changing this situation.

Indian Medical Association is an organization of qualified medical doctors. It includes professional medical practitioners, doctors working in government medical hospitals and allopathic doctors working in different medical institutions.

Why join IMA ?

There are different organizations of allopathic doctors according to their specialization. These are necessary. But all allopathic doctors must come under umbrella of Indian Medical Association, since; IMA is the only representative organization of doctors for protecting their interest. We strongly desire that all the qualified allopathic doctors should become life members of IMA. Chairman Membership Drive & his team are constantly trying to increase the membership of state branch of IMA to make it 100 percent. For achieving this dream, co-operation of all is absolutely necessary then only the organization will become strong & problems could be handled at appropriate level.

Doctors are also human beings and they could also commit mistakes during treatment of patients. If due to negligence of doctors, patients are harmed, they deserve punishment. For this, there are enough laws in our country. It is not necessary to invoke acts like consumer protection act for punishing the doctors. The media like newspapers should avoid depicting distorted pictures of medical profession.

There are many quacks and bogus doctors in society, because of them the entire community of doctors is unnecessarily defamed. IMA has taken lead (Anti-quackery Cell of IMA) to save people from the clutches of the cancer of bogus doctors.

- **Crosspathy** : Political leaders in their vested interest are favoring the crosspathy which is not only detrimental to the society but would be a major hindrance for the development of pathies like ayurveda and homoeopathy. IMA's crusade against crosspathy is remarkable.

Doctors are burdened with taxes / acts / laws.

2025-26

- At present doctors are rendering their services under the pressure of heavy taxes and many Acts. Normally, it is expected that the law should be used for correcting social structure, protecting the good citizens and punishing the evil elements. The present Acts relating to medical profession are doing exactly the opposite.
- Consumer Protection Act is being misused for defaming the doctors and recovering heavy amounts from them.
- In spite of the fact that Supreme Court has given the decision that it is not necessary to apply the Bombay Shop Establishment Act 1948 to doctors, the Govt. administrators are compelling the doctors to register under this Act.
- M.P.C.B. sends threatening notices to Doctors. The issue can be settled only through IMA.
304, 304-A : Serving patients is the religion of doctors. Doctors do not treat the patients for killing them. Then how far it is appropriate to apply these clutches of the Act to doctors?
- Maharashtra Clinical Establishment Act.
- Water Tax, Surcharge on Electricity, Commercial Tax etc. are likely to exploit the medical practitioners and can lead to corruption.
- Renewal of Registration of Nursing Homes by NMC is a burning issue. The issue remain pending for last 1½ years. IMA Nagpur under the leadership of its President is intensely concerned and making all the efforts to sort out the issues.

We must all collectively oppose these oppressive and unjust provisions. For this strong organization is necessary.

United we stand !
